

EMMADI SRIKANTH

CAD ENGINEER

Mechanical CAD Engineer with 4+ years of experience in Product Design and Sheet Metal Design using PTC Creo. Experienced in developing sheet metal components, manufacturing drawings, GD&T application, BOM generation, and large assembly modeling. Strong knowledge of sheet metal manufacturing processes, Design for Manufacturing (DFM), and fabrication principles. Proficient in Creo 7.0, Windchill, Creo View, AutoCAD, Siemens NX, and SolidWorks. A collaborative team player committed to delivering high-quality, manufacturable designs.

Skills

• CAD Software:

PTC Creo 7.0 · Windchill · Creo View · AutoCAD · Siemens NX · SolidWorks

• Sheet Metal

Walls · Flanges · Bends · Hems · Corner Reliefs · Flat Patterns · Sheet Metal Modeling

• Drafting

Manufacturing Drawings · GD&T · BOM Generation · Detailing

• Design

Large Assemblies · Design Optimization · DFM · Engineering Drawings

• Manufacturing

Sheet Metal Fabrication · Weldments · Light & Heavy Fabrication · Laser Cutting · Bending · Welding

Education

M.Tech (AMS)

2017-2019

SR Engineering College
CGPA 9.2

B.Tech (Mechanical Engineering)

2012-2015

Talla Padmavathi College of Engineering
66.73

Diploma in Mechanical Engineering

2008-2012

VMR Polytechnic
64.93

Certificates

- CAD/CAM – CITD
- Siemens NX/Unigraphics – CITD
- AutoCAD
- Fundamentals of FMT & CNC
- HVAC Pro

Languages

English · Telugu · Hindi

Work Experience

CAD Engineer @ Swathi Buildtech Pvt. Ltd.

Feb 2026

- Design and optimize heavy steel structures and PEB components.
- Prepare detailed fabrication drawings and Technical Material Lists (TML).
- Coordinate with production, sales, and site teams for successful project execution.
- Ensure compliance with engineering standards and quality requirements.

CAD Engineer @ Sri Laxmi Enterprises

Apr 2023 – Mar 2025

- Designed and optimized 100+ engineering components using Creo, Siemens NX, SolidWorks, and AutoCAD.
- Created manufacturing drawings with GD&T and detailed annotations.
- Generated BOMs and 2D production drawings from 3D models.
- Collaborated with manufacturing teams to improve design quality and reduce iterations by 20%.
- Conducted design verification to ensure compliance with functional and manufacturing requirements.

Junior CAD Engineer @ Anantharama Pvt. Ltd.

Apr 2020 – Mar 2023

- Developed 2D and 3D CAD models for engineering projects using Creo and AutoCAD.
- Assisted in product development, assembly modeling, and engineering drawings.
- Supported senior engineers in design improvements and documentation.
- Improved modeling efficiency through CAD process optimization.

CAD Programmer @ Swati Industries

Oct 2015 – Mar 2016

- Operated CNC machines and optimized machining processes.
- Performed machine setup, troubleshooting, and preventive maintenance.
- Improved production efficiency and maintained high-quality standards.
