

EMMADI SRIKANTH

CAD ENGINEER

Detail-oriented CAD Engineer with a strong foundation in 2D and 3D modeling, proficient in AutoCAD, PTC Creo, SolidWorks, Siemens Nx, and Catia. Eager to contribute to innovative design solutions and support project teams in achieving their goals.

☎ +91 9959024711

📍 Hyderabad, India

Professional Skill:

- AutoCAD 2D/3D
- SolidWorks
- PTC Creo
- Siemens NX/UG
- Drafting, GD&T
- Design Optimization

Education:

M-Tech / AMS 2017-2019

SR Engineering college, CGPA 9.2

B-Tech / ME 2012-2015

Talla Padmavathi College of Engineering, 66.73%

Diploma in Mechanical

Engineering 2008-2012

VMR Polytechnic, 64.93%

CERTIFICATES:

- Jr Designer CAD/CAM - CITD (04/2025 - 10/2025)
- NX/Unigraphics -CITD (07/2025 - 08/2025)
- HVAC Pro the ultimate HVAC guide (08/2023 - 08/2023)
- Auto CAD (02/2012 - 03/2012)
- Fundamentals of FMT and CNC (02/2011 - 06/2011)

Languages:

-English -Telugu -Hindi

Work Experience

CAD Engineer @ Swathi Buildtech pvt

02/2026-Prasent

- Analyzing project quotes and developing optimized structural designs for PEBs and heavy steel structures without compromising safety standards.
- Preparing detailed design drawings, structural reports, and Technical Material Lists (TMLs) for consultants and clients.
- Collaborating with Sales, Production, and Erection teams to ensure seamless transition from design to site installation.
- Overseeing site activities to ensure adherence to quality standards and national/international building codes.
- Identifying deviations in project scope and implementing cost-reduction measures to stay within budget.

CAD Engineer @ Sri Laxmi Enterprises

04/2023-03/2025

- Designed and optimized over 100 components and products using AutoCAD, Siemens NX/UG, and SolidWorks, resulting in a 30% boost in production efficiency.
- Migrating and detailing associated 2D manufacturing drawings, ensuring all annotations, GD&T (Geometric Dimensioning & Tolerancing) symbols, and Bill of Materials (BOM) are correctly generated and linked to the new 3D models.
- Collaborated with engineering and manufacturing teams to reduce design iterations by 20%, enhancing product quality and accuracy.
- Conducted thorough measurements and analysis on 20+ projects, achieving 98% compliance with functional and production specifications.

Junior CAD Engineer @ Anantharama Pvt

04/2020-03/2023

- Created 2D and 3D models for 30+ engineering projects, meeting industry standards and specs.
- Enhanced CAD drafting skills through regular training programs.
- Collaborated with cross-functional teams on 10 major equipment designs, driving project success.
- Optimized CAD software, reducing design rendering and modeling time by 20%.
- Supported senior designers in product redesigns, improving product aesthetics and user experience.

CAD Programer @ Swati Industries

10/2015-03/2016

- Monitored and adjusted machine performance for quality and accuracy
- Conducted routine maintenance and troubleshooting- Collaborated with team to meet production
- Achieved 99% machine uptime, exceeding industry benchmark
- Reduced setup time by 20% through process improvements
